Voice of Management

This is the 12th edition of our digital Jeena News and we feel motivated by the positive comments and feedback received from all our well wishers.

The Indian Economy is on track to grow at 8.3% rate in FY 2021-22, as forecasted by the World Bank. The RBI has trimmed the inflation projection to 5.3 per cent as it evaluated the economy at a time when there is a steady pick-up in activity with a calculated progress in the vaccination drive. As of now, a quarter of India's adult population being fully vaccinated and almost 75 per cent partially vaccinated, as per government data. India has also become the fastest country to achieve 1 Billion vaccinations which is a great achievement.

At present, the country's logistics industry is worth \$180 Billion and is estimated to grow at a CAGR of 10 per cent till 2024. The sector is expected to benefit and touch US\$ 220 billion over the next two years. There is a lot of investment that the industry is attracting and as a result of the transformations and changes led by these investments, the industry will stimulate job creation. The experts predict that it can be the largest job creator by 2024.

For Jeena, 2021-22 will be the year of Tech-enabled Innovation. We have entered into a strategic partnership with TechEagle Innovations to offer efficient drone based deliveries across India. As a first step through the partnership, Jeena provided on ground logistics support to TechEagle for the successful completion of Asia's First Drone based vaccine delivery project for the Telangana government. We are upgrading our financial system to Oracle Netsuite which is one of the most advanced financial ERP available today. We have also released version 3.0 of the Jeena Customer Portal, another industry first program to drive our growth while moving towards Digital JEENA.

Jeena is now serving both Serum Institute & Bharat Biotech, India's largest covid vaccine makers. On vaccination of our employees, as of now, more than 70% of our employees are fully vaccinated and almost 99% are partially vaccinated as per the records.

Therefore, we have begun the process of reopening our offices w.e.f 18th Oct 2021 only for fully vaccinated employees and after making numerous changes to our health, safety policies/procedures. We really missed our colleagues all this while and look forward to seeing them again.

We wish best of health and luck to all our customers, partners and colleagues.

Stay safe, happy and healthy..!!

Regards,
Sam Katgara
Partner, Jeena & Company

Jeena –TechEagle Partnership

As part of a strategic partnership, Jeena & Co has provided on ground logistics support to TechEagle in successful completion of Asia's first drone-based vaccine delivery project in complete cold chain environment for the Telangana government. During the project, TechEagle's drone delivered vaccines in a temperature-controlled box weighing 2.5kg for an aerial distance of 11.5km drone maintained 2.4°C through out the flight.

Customer Testimonial for the CICD team & the Import Clearance team

"From the bottom of my heart, I thank you all for the marvelous effort. Collectively you all have coordinated the entire shipment with precision & most importantly worked with dedication & devotion. As a client, we are extremely satisfied & look forward to many more years of association with you. Thanks for everything." - Mr. Chaitanya Khanzode

Jeena & Company makes it to the cover page of the Industry Outlook Magazine

We feel ecstatic to announce that Jeena & Company has been recognized as one of the top 10 logistics companies for the year 2021.
